2.0% CONVERTIBLE SENIOR NOTES DUE 2021

EFFECTIVE DATE DECEMBER 5, 2017

Question 14: *Describe the organizational action and, if applicable, the date of the action or the date against which shareholders' ownership is measured for the action:*

Pursuant to an Indenture, dated September 22, 2014, (the "Indenture") between TiVo Solutions Inc. (FKA TiVo Inc.) (the "Company") and Wells Fargo Bank, National Association, as trustee (the "Trustee") and as the conversion agent thereunder (the "Conversion Agent"), in connection with the Company's issuance of \$230,000,000 aggregate principal amount of its 2.0% convertible senior notes due 2021 (the "Notes"), as supplemented by that certain First Supplemental Indenture, dated September 7, 2016, by and among the Company, the Trustee and TiVo Corporation ("Parent"). Capitalized terms used but not otherwise defined herein shall have the meanings given to them in the indenture.

Generally, Section 10.06(d) of the Indenture provides for an adjustment of the conversion rate of the Notes upon the payment of cash dividends on the Parent common stock into which the Notes are convertible. However, pursuant to Section 10.07 of the Indenture, the Company does not adjust the conversion rate pursuant to Section 10.06(d) unless the adjustment would result in a change of at least 1% of the then-effective conversion rate. Instead, the Company cumulates the effects of such events and makes an adjustment only when the 1% threshold has been satisfied. On August 2, 2017, Parent declared a cash dividend, which was too small to result in an adjustment to the conversion rate pursuant to Section 14.04(d) of the Indenture. On November 1, 2017, Parent declared a second cash dividend on Parent's common stock. On the ex-dividend date of December 5, 2017, in accordance with the terms of the Indenture, Parent adjusted the conversion rate of the Notes from 22.0534 shares of common stock per \$1,000 principal amount of Notes to 22.5000 shares of common stock per \$1,000 principal amount of Notes to account for the two cash dividends previously declared by the Company.

Question 15: *Describe the quantitative effect of the organizational action on the basis of the security in the hands of a U.S. taxpayer as an adjustment per share or as a percentage of old basis:*

On December 5, 2017, Parent adjusted the conversion rate from 22.0534 shares per \$1,000 per debenture to 22.5000 shares per \$1,000 per debenture.

2.0% CONVERTIBLE SENIOR NOTES DUE 2021
EFFECTIVE DATE DECEMBER 5, 2017

Question 16: *Describe the calculation of the change in basis and the data that supports the calculation, such as the market values of securities and the valuation dates:*

The conversion calculation is defined as $A = B * [C / (C - D)]$, where:

A = Updated conversion rate = 22.5000

B = Conversion rate the day before the ex-dividend date = 22.0534

C = Average closing stock price the 10 trading days before the ex-dividend date = \$17.850

D = Dividend amount per common share = \$0.18

Using the same variables above, the deemed distribution calculation is defined as $(A - B) * C$. The deemed distribution amount per \$1,000 principal amount of the notes is \$7.9713.

Question 17: *List the applicable Internal Revenue Code section(s) and subsection(s) upon which the tax treatment is based:*

An adjustment to the conversion ratio of the Company's outstanding convertible debt as a result of the payment by the Company of a cash dividend paid to the Company's holders of common stock results in a deemed distribution under IRC Code Section 305(c) and Treasury Regulations Section 1.305-7 and its reference to IRC Code Section 305(b) and Treasury Regulations Section 1.305-3.

Question 18: *Can any resulting loss be recognized?*

No holders of the Notes will recognize a loss as a result of the conversion rate of the Notes.

Question 19: *Provide any other information necessary to implement the adjustment, such as the reportable tax year:*

The effective date of the conversion rate change is December 5, 2017.
